The Right Choice for Spray Polyurethane Foam (SPF) Technology
Huntsman is a global manufacturer and marketer of differentiated chemicals. In 2009, the Company had annual revenues of approximately $8 billion. The Polyurethanes Division of Huntsman is a worldwide leader in the production of MDI-based polyurethane systems for energy-saving insulation products.

Huntsman’s MDI is used as the “A-side” in many spray polyurethane foam (SPF) systems. Additionally, Huntsman offers a full range of SPF raw materials, including polyols, catalysts and other additives used to formulate the “B-side” of SPF systems.

Leading SPF system houses have utilized our raw materials and complete SPF systems, and relied on exceptional service from Huntsman for more than 25 years. Huntsman offers customers technical expertise in formulating open and closed cell SPF, building science and building code knowledge, market support, equipment advice and more.

In partnership with our customers, Huntsman actively promotes the use of SPF in residential, commercial and industrial construction applications, as an advanced, energy-saving insulation product.
Huntsman utilizes multiple Centers of Excellence for polyurethane foam technology to deliver continuous customer support and advanced technical innovation. Superior insulation technology has been developed for various climates and altitudes.

1. The Huntsman Advanced Technology Center (HATC) in The Woodlands, Texas serves customers in North and South America.
2. The Mexico City Technical Center covers the needs of customers in Mexico and Latin America.
3. The São Paulo Technical Center serves customers in Brazil.
4. The Everberg Technical Center in Belgium supports customers in Europe, Africa, the Middle East and the Indian sub-continent.
5. The Huntsman Technical Center in Ternate, Italy serves customers in Europe, Africa, the Middle East and the Indian sub-continent.
6. The Gateway West, Singapore Technical Center covers the needs of customers in the Asia/Pacific region.
7. The Asian Technical Center in Shanghai, China serves customers throughout China.

Huntsman SPF raw materials have been used to formulate quality SPF systems for decades. Huntsman offers one of the broadest product lines for SPF formulations – from high-quality MDI, to polyols, catalysts, additives and more.
Commitment to the SPF Industry

Huntsman’s SPF market knowledge, as well as our expertise in sustainable construction, building codes and polyurethane technology, make us a leader in driving SPF market extension. Huntsman’s dedication to the industry is reflected in our active participation in industry associations, including the Spray Polyurethane Foam Alliance (SPFA), the Center for the Polyurethanes Industry (CPI) and the Insulation Contractors Association of America (ICAA).

Product Stewardship

Huntsman strongly emphasizes the importance of good SPF product stewardship to minimize the environmental impact of our products. Products are assessed at every stage in the life cycle – from the sourcing of raw materials, through manufacture and commercial use, on to eventual disposal. This involves a close working relationship with customers, suppliers and others within the supply chain to maintain awareness of the environmental, health and safety (EHS) issues related to the raw materials and the finished polyurethane insulation products.

SPF Tools You Can Use

In support of our customers, Huntsman has developed SPF marketing and educational tools targeted to construction professionals. These include an FAQ guide to SPF, SPF brochures, case studies, white papers, an accredited American Institute of Architects (AIA) course and more. These tools are available through your supplier, by calling Huntsman directly at (281) 719-4914 or by emailing sprayfoam@huntsman.com.
With worldwide MDI production facilities in North America, Europe and Asia, and a highly capable downstream systems network, Huntsman delivers a consistent and reliable supply of MDI and other SPF materials. Huntsman's global production capabilities allow for efficient delivery of customized SPF materials anywhere in the world.
