HUNTSMAN

Enriching lives through innovation

We see a better world

We focus on developing products and solutions to solve new challenges, such as global demand for alternative energy. We enable our customers to be active in green technologies and introduce new eco-friendly processes as well as alternative materials to help reduce carbon footprint and preserve resources. By leveraging our core competencies, which include synthesis and formulation, testing and analysis, process manufacturing technology and technical service, we can develop sustainable products that benefit our customers, consumers and planet as a whole.

Huntsman Advanced Materials

We are a leading global supplier of synthetic and formulated polymer systems for customers requiring high-performance materials which outperform the properties, functionality and durability of traditional materials. Over 2300 associates at 13 locations worldwide, work to fulfill this promise day by day.

More than 3000 companies around the world use Huntsman Advanced Materials technologies in key markets such as adhesives and inks, aerospace, automotive, coatings, construction, electronics, medical, marine, power transmission and distribution, sports equipment and wind power generation.
