

Rolling stock adhesives selector guide

Reliable and comprehensive bonding solutions

Araldite®

The power of excellence

We are your partner of choice, embracing your vision and sharing your challenges as we progress towards a greener future together.

Shared challenges

We have a strong worldwide network working with regional development centers to support cross-national developments. Our regional headquarters allow us to act quickly, work flexibly, focus on local needs, and be cooperative. We work closely with suppliers and we network with market influencers to identify of the required technology of tomorrow. We look forward to offering you total solutions that fit your business.

Powerful partnership

We're determined to not only understand your business and your interests, but also to embrace your vision, serve your needs, and solve your problems. We would like to partner with you and share knowledge in order to improve your productivity, maximize your returns, and help you succeed. We are the best choice of partners.

Dedicated sustainability

We will build a deep understanding of your needs so that we can use our knowledge to meet and exceed your expectations. We are passionate and committed to building lasting relationships of mutual benefit to sustain and progress towards a greener future.

Diverse people

Our people are from diverse backgrounds. They are curious and perseverant, enthusiastic and energetic, and continually seeking new technological and green solutions to create advanced materials for you.

High performance adhesives for rolling stock

Huntsman's recognised expertise in research and development allows us to offer a uniquely wide range of innovative solutions for rolling stock. With one of the most trusted brands – Araldite®, bonding materials from different substrates is no longer an arduous problem.

Glorious history for over 60 years

- 1946** Araldite® adhesives launched into the market as the first epoxy resin product.
- 1955** The first toothpaste type DIY Araldite® adhesive was launched into the market.
- 1966** Araldite® adhesives were used for the construction of Sydney Opera House in Australia.
- 1977** Araldite® adhesives helped a rescue boat to complete a mission.
- 1983** Araldite® structural adhesives were used to bond key structure of TGV high speed train.
- 1995** Araldite® rapid adhesives launched to the market in a new small package
- 1999** Araldite® adhesives were used in China's aerospace engineering for its self-developed spaceship – "Shenzhou", which was successfully launched and returned.
- 2002** Araldite® adhesives were used to build first Maglev train made in Germany for Shanghai Pudong line.
- 2004** Araldite® adhesives were chosen to be used on A380, the most advanced passenger plane at that time, for composite materials bonding
- 2006** Araldite® adhesives were used for the bonding of Barcelona landmark – Torre Agbar's circle roof.
- 2008** Araldite® epoxy adhesives were selected for the renovation and extension of Beijing Worker Stadium.

Reliable adhesives which meet stringent requirements

Provide reliability and efficiency in the production of mass transit vehicles, which can meet the stringent requirement of fire retardant regulation including BS 6853*, code of practice for the precautions in the design and construction of passenger carrying trains and DIN5510-2*, preventive fire protection in railway vehicles.

* Certain products have met the standards already while others are applying the tests

We see a better world

We focus on developing products and solutions to solve new challenges, such as global demand for alternative energy. We enable our customers to be active in green technologies and introduce new eco-friendly processes as well as alternative materials to help reduce carbon footprint and preserve resources. By leveraging our core competencies, which include synthesis and formulation, testing and analysis, process manufacturing technology and technical service, we can develop sustainable products that benefit our customers, consumers and planet as a whole.

Huntsman Advanced Materials

We are a leading global supplier of synthetic and formulated polymer systems for customers requiring high-performance materials which outperform the properties, functionality and durability of traditional materials. Over 2200 associates at 13 locations worldwide, work to fulfill this promise day by day.

More than 9000 companies around the world use Huntsman Advanced Materials technologies in key markets such as adhesives and inks, aerospace, automotive, coatings, construction, electronics, medical, marine, power transmission and distribution, sports equipment and wind power generation.
