NEW PRODUCT LAUNCH

EPIBOND® 8000 FR A/B Adhesive

New Flame-retardant Structural Adhesive from Huntsman Advanced Materials

Epibond® 8000 FR A/B is a two-component, flame-retardant epoxy structural adhesive designed for interior applications and meets the flammability, smoke density and toxicity requirements of FAR 25.853. Easy to mix and apply, Epibond® 8000 FR A/B bonds honeycomb panels, metals and composite materials, as well as bonding inserts. Available in dual syringe 50 ML and 200 ML cartridges for easy use. Does not intentionally contain any Substances of Very High Concern (SVHC) as defined under REACH.

Key Features

- 2:1 (pbv) mix ratio
- Thixotropic paste
- 55 minutes working time
- Room temp or heat cure
- High shear strength
- High peel strength

Key Benefits

- Easy to process by hand or cartridge
- Gap filling allows vertical application
- Long working time allows for large composite part assembly
- Flexibility of cure time
- Versatile product to cover multiple applications
